

GUYMASTER Supplementary Release Note
For version 7.3.3 as of February 23, 2021

1. The “Consider Ka=0.8” flag can now be set directly in the Discrete Appurtenances table.

DISCRETE APPURTENANCES										
								Position by Centre Point	<input type="checkbox"/> Consider Ka = 0.8 (Applied for items with the same Group ID NOT = 0)	
Elevation m	Type of Material (*)	Length m	Location		Orientation			Ka (#)	Group ID	 COMMENTS
			Distance m	Azimuth (°) deg	Horizontal deg	Vertical deg	Roll deg			

2. We have corrected typographical error in the Guy Geometry table

GUY GEOMETRY								
Elevation m	Guy		Diameter mm	Height m	Radius m	Mast Attached		Initial Tension kN
	Azimuth deg	Type (*)				Radius mm	Azimuth deg
